TC 25-1Update

Army Training Modernization Directorate

TC 25-1

TRAINING LAND

Provides:

Installation commanders and staffs a standard methodology for identifying requirements for maneuver/training areas.

The Army a method to justify acquisition of new maneuver/training areas, and to defend and sustain the use of current maneuver/training areas.

Unit commanders (brigade and below) a tool to determine what tasks they can accomplish in live training, given the available maneuver/training area. It also assists commanders planning unit training.

An introduction to Integrated Training Area Management (ITAM) and

TC 25-1, TRAINING LAND

Army Training Modernization Directorate

- **What's new and different in this TC 25-1:**
  - **Table A:**
